

To expand the company's product line of commercial service robots in the cleaning industry and serve multiple cleaning scenarios, Pudu Robotics had created the new PUDU CC1, a cleaning robot for business use, which is capable of scrubbing, sweeping, dust mopping and vacuuming, automatically recharging, automatically refilling or discharging water and measurable cleaning.

- Stable efficiency and higher quality of cleaning
- Lower recruitment, training and management costs
- Reduce employee injuries and absences
- Easily deal with custodial inspections with digital reports
