

PUDU MT1 Vac

AI-powered Robotic Sweeper & Vacuum

Powerful Suction

High Efficiency

Extended Run-time

AI-driven
Adaptive Cleaning

Quick-Release
Dust Mop Module

Hand-vacuum Extension

Double Efficiency

Dual-fan deep vacuuming: Equipped with a new dual independent air duct system, boosting suction efficiency by 200%.

For Both Carpet and Hard Floors

AI-powered floors recognition identifies carpet and hard floors in real time, automatically adjusting suction and brush speed to protect delicate surfaces.

Wide Cleaning Coverage

55 cm extra-wide suction path:

Compared with most traditional commercial vacuum cleaners, each pass covers twice the area, greatly reducing cleaning time and improving efficiency.

24/7 Continuous Operation

With a large battery, fast-charging system, and charging station, the MT1 Vac supports 24/7 operation.

Easy Maintenance, Tool-Free Swaps

Quick-release modular design allows tool-free replacement of most cleaning components in seconds. The dust mop can be removed and deployed flexibly to suit different cleaning needs.

Dust and Waste Separation

6L trash bin + 14L dust bags:

The large-capacity system handles large-area cleaning in a single run, significantly reducing the need for frequent emptying.

Hand-vacuum Extension

Hand-vacuum extension allows cleaning of sofa sides, walls, and glass surfaces. Flexible reach for edges, high surfaces, and soft furnishings.
