

Meet the all-new UR18

A compact, heavy-duty cobot built to lift high payloads, move fast and fit anywhere.

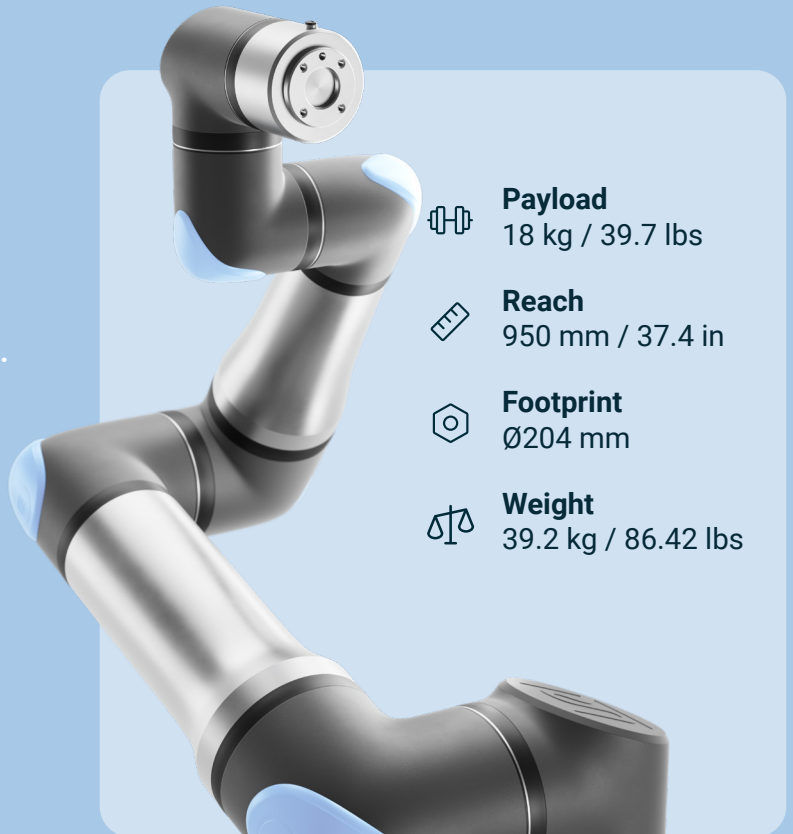

No more trade-offs.

Until now, manufacturers had to choose: **heavy payload capacity** or **speed**.
The UR18 gives you both.

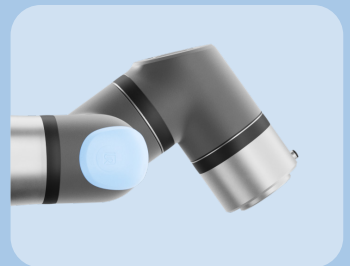

UR18 is built to deliver both power and efficiency, making it the perfect choice for manufacturers who need to move more – faster. Its robust design supports **larger end effectors** and **heavier payloads** without compromising **speed**.

That means...

- ✓ Shorter cycle times
- ✓ Higher productivity
- ✓ More output per square meter

-  **Payload**
18 kg / 39.7 lbs
-  **Reach**
950 mm / 37.4 in
-  **Footprint**
Ø204 mm
-  **Weight**
39.2 kg / 86.42 lbs

Where can you leverage UR18?

Automotive

Material Handling
Machine Tending
Assembly

Logistics

Material Handling

Food & Beverage / FMCG

Material Handling

Ready to see what UR18 can do for you?

Discover how UR18 can **cut cycle times**,
increase productivity and **fit seamlessly into**
your operations.
